ENTREPOT AT CAMPEACHY .- The] Tiglio XIX. (a newspaper printed at Merida,) publishes a decree of the Governor of Yucatan, establishing an entrepot for imported goods at Campeachy. The

following are the provisions of the decree : ART. Ist. A mercantile depot is to be established in the port of Campeachy, where all goods may be stored for one-year, without being liable to duty, on prying two per cent. for storage, which two per cent, is payable within thirty days after the goods are entered.

2d. Goods or merchandise taken from the depot before the end of a year for synutation, are not subject to either state.

end of a year, for exportation, are not subject to either state or municipal duty.

3d. Goods or merchandise taken from the depot for the 3d. Goods or merchandise taken from the depot for the state market, or which have remained a whole year in the depot, will pay both state and municipal duty.

4th. Provisions, pitch, and inflammable stuffs, empty vessels of every description, and naval stores, are prohibited from being stored in the depot.

5th. The government of the depot will be administered by officers appointed by the state.

THE CHEROKEES .- In the case of Porterfield vs. Clarke and others, recently discussed in the Supreme Court of the United States, copies of treaties between Great Britain and the Cherokees, extending so far back as 1767, and showing the extent of their boundaries in 1772, were produced. From these documents we learn that the bounda. ries of the Cherokee nation were originally much more extensive than is generally supposed, having embraced much of Virginia, North Carolina, South Carolina, Georgia, Tennessee, and the whole of Kentucky.

A tragical affair came off eight or nine miles from Salisbury, N. C. in the latter part of February. A man named Monroe had been living a very bad life, and his friends undertook to reform him. One evening his son-in-law went to him, and, it is said, used discourteous language. Monroe told him "if he came there for a fuss he should have it," and an affray ensued, in which Monroe shot the other, the ball entering the abdomen, but it has not proved fatal. Monroe's family instantly fled, and he, thinking he had killed his son-in-law, committed suicide.

OUTRAGE.—The fore part of a head, including the scalp, was found lying upon the door steps of a dwelling in South Division street this morning, which had evidently been in the hands of some unskilful surgeon. After being removed to the office of Coroner Harris, it was identified as that of a female who died within a few days past .--The friends of the deceased are of course indig. nant at so great an outrage, and have commenced an investigation, which will probably lead to Buffalo Com. to a discovery.

THE OREGON TERRITORY .- Bulls from the Holy See have been received by the Bishop of Quebec, erecting into an Apostolic Curacy the whole Territory beyond the Rocky Mountains lying North of California, and appointing M. Francois-Norbert Blanchet, Apostelic Vicar, with the title of Bishop of Philadelphia in partibus infidelium, one of the most ancient Sees established in Asia Minor by [Montreal Herald. the Apostle St. John.

By the recent order of the War Department, officers of the Army, in addition to the actual expenses of transportation, will, when trav. eling under orders, be allowed the sum of one dollar per day when entitled to forage, and one dollar and twenty-five cents per day when not entitled to forage, allowing for the journey the ordinary time necessary for the purpose.

HORRIBLE DEATH .- On the approach of the Housatonic train Tuesday morning to the depot at North Canaan, one of the hands in stepping from the cars to the platform fell between the cars and the platform and was crushed in a most dreadful manner. He died almost instantane-

This is not a new medicine. It has been known for years, and its healing influences have been felt by thousands in the vicinity where it has been sold. But no effort has ever before been made to introduce it to the public at large by means of the press. It has been left to work its way silently by its own intrinsic merits, and to depend for its celebrity upon actual experience and the wonderful cures it has effected. The extent of these, and the high and just reputation which it has thus acquired, are manifest from hundreds of testimonials, yoluntarily iurnished to the proprietor by gentlemen of the medical profession and others who have tried it. It is now, for the first time, advertised in the public journals, in order that its priceless benefits may be made known, and enjoyed more widely by the afflicted who are suffering without a knowledge of its healing powers.

Colds, Coughs, Ashma, Inflsenza, Whooping Cough, Croup, Worms, Hemorrage (or raising of blood), and the whole class of diseases affecting the breast and lungs, tending to consumption, and other kindred diseases, are controlled by it as by a charm. These complaints are of a most insidious character. They commence with a slight cold, or with some trifling ailment, which being at

No person who has any regard for the inestimable blessing of health should be without this mild, pleasant, safe, and yet powerful halfsam. In this climate, where changes of weather are so sudden, and their effects so injurious, it is immensely important. A timely use of it has saved and will save thousands from the pains of protracted ithness, from beds of languishing, from wasted frames, debilitated constitutions, and even from death itself.
